Date and Time Imagery Delivered to Incident: 07/11/08 0100 hrs		Electronic file sent to: ftp://ftp.nifc.gov/Incident_Specific_Data/CALIF_N/2008_CalFire/CA-MEU-4608_Mendocino_lightning_detection/GIS/IR_Data/	
Comments /notes on tonight's mission and this interpretation: I've made a pdf that should be found with this file that will show the placement of the boxes relative to the actual fires. The pilots request that the west most box be moved a little east so that they will not be flying over the ocean. Also if the northern boxes could be consolidated, it would be appreciated. THANKS!!
